PROJECT PLAN

E-Learning Tablet System with MDM Control

Company: Fix Mobile System
Project: School E-Learning Tablet Solution
Purpose: Educational tablets tailored to each school curriculum with full teacher and school control

1. PROJECT OVERVIEW

Fix Mobile System is developing an **educational tablet solution for primary and secondary schools**.
The tablets will be used **strictly for learning**, fully controlled by the school using an **MDM (Mobile Device Management) system**.

The goal is to:

- Improve teaching and learning
- Digitize school curriculum
- Track student attendance and performance
- Prevent misuse of tablets during school hours
- Provide an affordable and scalable e-learning solution for Nigerian schools

2. TARGET USERS

1. **Students**
    a. Use tablets strictly for learning
    b. Access curriculum content, textbooks, lessons, and exams
2. **Teachers**
    a. Control student tablets in class
    b. Mark attendance

    c. Upload lessons and assessments
    d. Track student performance
3. **School Management / Admin**
    a. Manage devices, users, and curriculum
    b. View reports and analytics
    c. Control policies and permissions

3. TABLET FUNCTIONAL REQUIREMENTS

3.1 Core Tablet Purpose

The tablet must function as:

- A **digital textbook**
- A **learning management system**
- An **assessment and examination device**
- A **student performance tracking tool**
- A **school activity platform**

The tablet **must not function like a normal consumer Android tablet**.

4. MOBILE DEVICE MANAGEMENT (MDM) SYSTEM

4.1 MDM Control Features

The system must include a **central MDM dashboard** that allows the school and teachers to:

- Lock/unlock student tablets remotely
- Restrict non-educational apps
- Disable games, social media, and unapproved browsers
- Push lessons, updates, and content
- Set school hours and usage schedules

4.2 Teacher Classroom Control

Teachers must be able to:

- Lock students into a specific lesson or app
- Freeze screens during teaching
- Prevent app switching
- Monitor student activity in real time

5. CURRICULUM & CONTENT MANAGEMENT

5.1 Curriculum Customization

Each school's tablet setup must be:

- Tailored to the **specific school curriculum**
- Aligned with **approved educational standards**

Supports:

- Primary and secondary school levels
- Class-based content
- Subject-based learning

5.2 Digital Textbooks

- Approved textbooks preloaded or downloadable
- Offline access where possible
- No unapproved materials

6. ATTENDANCE MANAGEMENT SYSTEM

The system must allow:

- Daily attendance marking by teachers
- Login-based student identification
- Attendance reports per class, term, and session
- Exportable records

7. ASSESSMENT & EXAMINATION MODULE

7.1 Continuous Assessment

Supports:

- Quizzes
- Assignments
- Class tests
- Homework

Includes:

- Auto-grading (where applicable)
- Manual grading
- Secure score storage

7.2 Examination Mode

- Tablet locks into exam mode
- No app switching
- Internet control (on/off)
- Auto-save and secure submission

8. STUDENT PERFORMANCE TRACKING

Tracks:

- Attendance history
- Assessment scores
- Exam results
- Subject performance trends

Reports:

- Student-based
- Class-based
- Term/session-based
- Downloadable formats

9. LECTURES & LEARNING CONTENT

Teachers can:

- Upload notes (PDF, text, slides)
- Upload video/audio lessons
- Schedule lessons

Students can:

- Access assigned content
- Use offline learning where enabled

10. USER AUTHENTICATION & ROLES

10.1 User Accounts

- Student
- Teacher
- Admin

10.2 Role Permissions

- Students: restricted access
- Teachers: classroom control
- Admin: full system control

11. SECURITY & RESTRICTIONS

- Disable factory reset
- Block third-party app installation
- Prevent misuse of SIM/data
- Encrypt student and school data
- Cloud backup

12. CONNECTIVITY

- Online and offline functionality
- Auto-sync when internet is available
- Wi-Fi and optional SIM support

13. HARDWARE EXPECTATIONS

Tablets must:

- Be education-optimized
- Be durable and student-friendly
- Have long battery life
- Use a locked Fix Mobile System launcher/OS

14. DEPLOYMENT & SCALABILITY

- Multi-school support
- Isolated school data
- Easy onboarding
- Scalable device addition

15. DEVELOPER DELIVERABLES

1. MDM backend
2. Teacher dashboard
3. Admin dashboard
4. Student tablet interface
5. Curriculum management system
6. Attendance module
7. Assessment & exam module
8. Performance analytics
9. Security enforcement
10. Documentation & training guide

16. PROJECT GOAL SUMMARY

This project is a **complete digital school ecosystem**, not just tablets.

It must:

- Improve discipline
- Reduce distraction
- Enhance teaching
- Track performance
- Modernize education affordably

DEVELOPER CHECKLIST

E-Learning Tablet System (Fix Mobile System)

1. CORE SYSTEM SETUP

☐ Build a centralized backend system
☐ Support multiple schools with isolated data

☐ Allow easy onboarding of schools, classes, teachers, and students
☐ Cloud-based with offline sync support

2. USER ACCOUNTS & ROLES

☐ Student accounts (restricted access)
☐ Teacher accounts (class control access)
☐ Admin accounts (full system access)
☐ Secure login for all users
☐ Role-based permissions enforced

3. TABLET LOCKDOWN (CRITICAL)

☐ Custom launcher or OS restriction
☐ Disable app installation by students
☐ Disable factory reset and system tampering
☐ Block non-educational apps
☐ Restrict browser to approved websites only
☐ Prevent SIM/data misuse

4. MDM (MOBILE DEVICE MANAGEMENT)

☐ Central MDM dashboard
☐ Remote lock/unlock of devices
☐ App and content control per school
☐ Push updates and learning content remotely
☐ Set school usage hours
☐ Monitor device status

5. TEACHER CLASSROOM CONTROL

☐ Lock student tablets to a single app/lesson
☐ Prevent app switching during class
☐ Freeze screens when teaching
☐ Release tablets after lesson
☐ Real-time control during lessons

6. CURRICULUM & CONTENT MANAGEMENT

☐ Curriculum setup per school
☐ Class-based structure (Primary, JSS, SSS)
☐ Subject-based content management
☐ Upload textbooks, notes, videos, audio
☐ Offline access to approved content
☐ Restrict content to school-approved materials

7. DIGITAL TEXTBOOK FUNCTION

☐ Use tablet as primary textbook
☐ Easy navigation by subject and class
☐ Search within textbooks
☐ Offline reading support

8. ATTENDANCE SYSTEM

☐ Teacher marks attendance digitally
☐ Attendance linked to student accounts
☐ Daily attendance records
☐ Class and student attendance reports
☐ Export attendance data

9. ASSESSMENT MODULE

☐ Create quizzes and assignments
☐ Support homework submission
☐ Auto-grading where applicable
☐ Manual grading support
☐ Store scores per student and subject

10. EXAMINATION MODE (CRITICAL)

☐ Secure exam mode
☐ Lock all other apps during exams
☐ Disable screenshots and app switching
☐ Control internet access
☐ Auto-save answers
☐ Secure exam submission

11. STUDENT PERFORMANCE TRACKING

☐ Track attendance history
☐ Track assessment scores

☐ Track exam results
☐ Generate student performance reports
☐ Generate class and term reports

12. LESSON DELIVERY

☐ Upload lesson notes (PDF, text, slides)
☐ Upload video/audio lessons
☐ Schedule lessons per class
☐ Student access to assigned lessons only

13. REPORTING & ANALYTICS

☐ Attendance reports
☐ Assessment reports
☐ Exam results reports
☐ Student progress summaries
☐ Downloadable reports (PDF/Excel)

14. OFFLINE & SYNC SUPPORT

☐ Core features work offline
☐ Data sync when internet is available
☐ Prevent data loss during sync

15. SECURITY & DATA PROTECTION

☐ Encrypt student and school data
☐ Secure backups
☐ Prevent unauthorized access
☐ Activity logging for admin review

16. HARDWARE OPTIMIZATION

☐ Tablet performance optimized for learning apps
☐ Battery-efficient operation
☐ Camera restricted to learning use
☐ Locked to Fix Mobile System environment

17. DEPLOYMENT & SCALING

☐ Support adding new tablets easily
☐ Support adding new schools
☐ Device enrollment process defined
☐ Scalable architecture

18. FINAL DELIVERABLES

☐ Student tablet interface
☐ Teacher dashboard
☐ Admin dashboard
☐ MDM system
☐ Documentation
☐ Basic training guide

FINAL ACCEPTANCE RULE

- ✅ If students **cannot misuse the tablet**
- ✅ If teachers **can fully control the classroom**
- ✅ If schools **can track learning and performance**

Then the system is complete.
